JANASSE
Chaupin

CHÂTEAUNEUF DU PAPE

CHAUPIN

Location: *This wine is coming from the cold and late soil named Chapouin (sand), La Crau and La Janasse (sand).*

Acreage: *7 ha.*

Grapes: *100% Grenache. The oldest vines were planted in 1912.*

Vineyard: *The vines are grown without pesticides or insecticides and manure is natural. Yield of 28 hl/ha.*

Vinification: *80% stems removal. Maceration during 26 days and handmade pressing once a day.*

Ageing process: *2/3 in big barrels (“foudres”) and 1/3 in 600 litres barrels (“demi-muids”).*

Production: *12 to 16.000 bottles per year.*

Tasting: *The quintessential grenache in its most beautiful expression on his cradle Châteauneuf. Between notes of black fruit and violets, this wine evolves with very soft tannins already melted. A beautiful bottle, archetype of the appellation, to marry a deer stew today and within the next twenty-five years.*
